Compliance Services

Helping you manage your compliance risk

Compliance is a key risk for all financial services companies and is increasingly complex with ever-changing regulatory and statutory requirements and expectations.

Not only must the function undertake core compliance activities, but Boards are looking to compliance to add value to the business by becoming involved in areas such as product governance and design, delivering good customer outcomes, business strategy and planning, and facilitating a strong compliance culture.

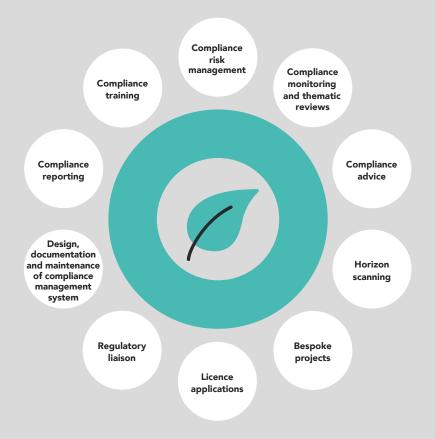

If you have an established insurer or insurance intermediary or are considering the formation of one, having a compliance function that is effective, knowledgeable, and efficient is paramount.

Robus is an independently operated insurance management, fiduciary and financial advisory group. From our offices in Gibraltar and Guernsey we provide services to captive insurers, open market insurers, reinsurers and intermediaries. We have dedicated experienced compliance staff who are insurance specialists and can provide flexible solutions to help you manage your compliance risk.

How We Help Clients

Our ability to tailor and deliver a broad range of compliance services ensures we are able to meet your specific needs.

How Clients Benefit

Robus delivers excellence; we build a deep understanding of our clients' businesses and, through our support, we help them to prosper and grow.
